EXPERIENCE

COMPANY: MODERN DEVELOPERS (md.uz)

Role: FRONTEND DEVELOPER

Project: DachaOl (dachaOl.uz)

2023-year

- This project was my first real project and I learned a lot while building this project. Examples of these technologies include TanstackQuery, Axios real API, Access Token and Refresh Token, Role Base, CleaveJs, Form validation, Web progress, Seo validation.

Role: FRONTEDN && TEAM LEAD DEVELOPER

Project: Food-menu (food-menu.uz)

2024-year

- One of my favorite projects is the food menu project. This project, like my other projects, taught me a lot, for example, I learned a lot about Material UI and how to use TypeScript.
